DROP 1: THE MONDO STROLLER CONCEPT 2024

Every spring begins with new MONDO Strollers. Last year we introduced a greige coloured chassi that immediately became a favourite for many consumers. The two new styles in 2024 have this feature, and we are bringing back “Blushing Pink” – a long standing top seller - as one of the colour choices. The other is a brand-new design called “Dalmatian Dots”. This speckled and trendy doggy-print will be one of the defining ones for the

entire Spring collection, where you’ll also find the peace-inspired “Free Bird” and a lighter shade of the popular “Blue Garden” from A/W-23. The Bouclé trend is still going strong, so we’ve developed a white version complementing last years pink. Our Classic CosyCushion is getting a little uplift this season with the botanically inspired new shape at the top. And as always, there are several new styles of headwear complementing the range.

DROP 2: 2024 DALMATIANS

You’ve probably heard of 101 Dalmatians, but we are taking it a step further. In our second drop of the year, they are everywhere. From the adorable Snuggle, to Muslin Blankets, Hooded Towels, Baby Nests, Pacifiers and Pacifier Clips. Dalmatians and their distinctive dots as far as the eye can see. Everyone’s favourite

Blinkie comes in no less than 5 new colours, including the new Gelato Green and Bermuda Blue. Last but certainly not least, the flower trend continues with the new Binky Bloom pacifier. With a shape and design unique for Elodie, it is something that is guaranteed to bring a sunshiny smile to people’s faces this spring.

BAMBOO MUSLIN BLANKETS

A soft and lightweight blanket that is wonderfully smooth on your baby's sensitive skin. Bamboo fibres has many great qualities, such as being very moisture absorbing and breathable, as well as having great temperature control capabilities. The double layers of classic Muslin weave enhance these abilities further and creates a blanket that gets softer with each wash. This versatile blanket can also be used as nursing cover, a portable crib sheet and more.

Size: 80 x 80 cm

Material: 50% Bamboo, 50% OEKO-TEX® certified Cotton

Material from SS23 (NEW): 70% Bamboo, 30% OEKO-TEX® certified Cotton

CELLULAR BLANKETS

Cellular blankets are ideal for tiny new family members. The small holes in the fabric provide both safety features and make it soft and easy to drape around little bodies. The holes allow for a comfortable flow of air. Due to the breathability of the material, these blankets are also easy to layer and combine with other blankets when needed, depending on the surrounding temperature. It can also work perfectly as a sun or insect screen on the stroller as the holes allow for air circulation.

Size: 75x100 cm
Material: 100% Cotton
Care: 30°C machine wash
Pcs/Pack: 3

WOOL KNITTED BLANKETS

This wonderful blanket is made with a soft blend of wool and cotton that will keep your little one warm even in the coldest winter days. The natural materials used are breathable and do not irritate even the most delicate skin. The wool used is ethically sourced and traceable, guaranteed to always be non-mulesed. This blanket's size make it suitable for any situation where you need a warmer cover for your baby, both at home and on the go.

Size: 75x100 cm
Material: 60% Cotton, 40% RWS-certified and mulesing free wool *30% Wool, 70% Acrylic

WATER BOTTLES

This is a light-weight water bottle for active kids. It's made from food grade stainless steel that is perfect for little adventurers as it won't chip, dent, or break even during the wildest of play. It's easy to use and the foldable straw cap makes it spill-free and keeps it clean and hygienic for longer. Choosing a stainless-steel

bottle over plastic alternatives means you are guaranteed to have something that is 100% free from BPA, phthalates, or other harmful substances, and it helps you reduce your everyday use of unsustainable plastic. The bottle can hold up to 350 ml.

GLASS FEEDING BOTTLES

Elodie’s glass feeding bottles are made from temperature-resistant borosilicate glass with a food-grade silicone casing. The material makes them lightweight, durable, and scratch-resistant. The glass is naturally free from any harmful substances and the bottle can withstand temperatures from freezing to sterilization in boiling water. The dustproof cap prevents any airborne contamination of the teat, and the wide neck design makes the bottle very easy to clean. The feeding bottle is delivered with a food-grade silicon suction teat suitable for babies between 0 and 6 months. The anti-colic valve in the teat allows your baby to feed continuously without taking in air bubbles or having to gasp for air between

latches. The spiral shape inside the teat prevents teat collapse for uninterrupted comfortable feeding. Replacement teats and larger teats are available separately.

BOWL SET

This beautiful bowl for first-time eaters is made with BPA-free, food grade silicone. The material lets you heat up food directly in the bowl and is virtually unbreakable. It will last for years even if it gets dropped or even thrown to the floor every day. It will not chip, crack, dent or break. The chunky and rounded spoon in genuine wood gives tiny hands a good grip, and the rounded edge design of the bowl encourages self-feeding from your toddler by making it easy to scoop up the food. The smart suction ring lets the bowl

sticks to any flat surface, giving you less floor scrubbing as a bonus. Dishwasher and microwave safe. Tested according to EN14372, fulfilling the European safety standard for feeding utensils.

CONVERTIBLE FOOTMUFFS

Transforms to seat cushion for year-round use

This is your new best friend for the stroller, pushchair, or pram. A smart 2-in-1 product for year-round use. At the base is a good looking and well fitted stroller cushion that makes the ride wonderfully comfortable. But in less than 10 second you can zip on the lid and create a footmuff that is protective, warming, and cosy. Perfect when daytime is hot, but the night gets colder, or when the weather is unpredictable. The lid is lined with a soft cotton jersey that feels smooth against the skin and makes outside napping easy as a breeze. The zippers are premium quality and very easy to operate. Look for the many other matching stroller accessories in Elodie's assortment to create a personal, practical, and pretty stroller experience for you and your child.

CARSEAT FOOTMUFFS

Cold climate traveling made easy

Keep your little one protected from rain, wind, and cold weather with this cosy and smart product. Elodie’s car seat footmuffs have universal fit and enables cold weather travel without the need for bulky clothing. The padded outer fabric and luxurious pile lining keeps your baby warm even in the coldest of weathers.

The smooth, high-quality zippers open at both ends to make it easy to get your child in and out of the car seat, and the fold down front flap offers instant temperature control. The large hood shields

against winds and maintains warmth. When not needed the hood can be opened up and folded away, using a built-in zipper. The footmuff is completely machine washable and easy to keep fresh and clean.

CHANGING BAGS

Elodie’s Changing Bags are designed to be multifunctional. When the diaper-changing-days are over, you can use our bags to the gym, the office, as a weekend-bag or as your favourite one-and-only bag. This way you can significantly decrease its environmental impact through upcycling.

Design and Function, this is more than just a diaper bag. With the look and feel of an exclusive handbag, we believe you will use it on all occasions. When caring for your little treasure or when caring for yourself. Either way you will love the premium feel, the high quality and all the nice features we’ve added. There are

pockets designated for diapers, wet tissues, keys, mobile phone and even a thermo pocket for keeping your baby’s formula warm or your own drink cold. A soft changing mat is included with every changing bag, as well as straps that allow you to hang it from the stroller’s handle bars.

ELODIE MONDO STROLLER

Designed For Your Journey

TRAVEL SIZED

The MONDO has been specifically developed for families on the go. It folds down to a tiny size of 54x42x18 cm that lets you stow it easily in your car, on the train or even in the overhead compartment of most airlines. Imagine bringing your own stroller all the way to the check-in gate when flying.

SMALL & STURDY

Despite being compact and at only 6,7 kg really lightweight, the MONDO is impressively sturdy and robust. It is approved for use by children weighing up to 22 kg.

FULL SLEEPING POSITION

Created for comfort and extended periods of use when out and about, we've made sure the napping possibilities are optimal. The backrest folds down to full sleeping position and the footrest can be locked in an upright position, creating a comfortable sleeping position for your child.

PAPARAZZI CANOPY

The Canopy on the MONDO is something special. Opening a zipper allows you to extend it much further down in order to shield your kid from sunlight or distractions, hence the name "Paparazzi canopy". It has UPF 50+ sun protection and a closeable peekaboo-window on top so that you can check in your child at any time.

STOW & GO BACKPACK

The Stow & Go Backpack comes free with every MONDO. It fits perfectly in the basket beneath the seat. When it's time to fold your stroller into travel size, you simply zip up the storage basket and it becomes a backpack in seconds. Freeing up your hands to lift up your kid while stowing away or carrying the stroller. As a bonus, it neatly attaches to cabin sized luggage.

MACHINE WASHABLE

Keeping the MONDO clean is easy as all fabrics are removable and machine washable. Use the machine's gentle program at 30 degrees and allow the fabric to self-dry before re-attaching it to the frame of the stroller.

RESPONSIBLE

The fabrics are a high-quality polyester weave that is produced using 100% recycled PET-bottles. The Stroller itself is produced with carefully selected materials to ensure as long a life- expectancy as possible. It is regularly tested to ensure it complies with the high safety Standards of the European regulation EN-1888.

CARRY COT

With the Elodie Mondo Carry Cot your Elodie Mondo Stroller becomes your one and only! The Carry Cot is an infant bassinet that you attach to the frame of the stroller with the included adapters to create a safe and snug place to rest for your new-born. It is lined with a soft and comfortable foam mattress with a removable and washable cover. The large canopy has UV 50+ sun protection and features a built-in air vent to increase air flow on warm days. The lid is equipped with a smart wind guard that you can fold up

as protection when bad weather calls for it. The Carry Cot is suitable from new-born and up to around 6 months or 9 kg. At that time, you switch back to the Elodie Mondo seat, with no need to invest in an all new stroller.

OUR STORY

The story began in Stockholm back in 2005, when our founder Linda Sätterström had her first daughter, Elodie. Well-designed clothing for babies and toddlers were available everywhere back then. But Linda couldn't find designed alternatives for many of the other products that you need for life with a baby. So she developed her first product, a pacifier clip. One that was beautiful and that would match her daughter's outfit. She began selling the clips and the idea really struck a note with other parents. First in Stockholm, then Sweden, and finally all over the world. The pacifier clip remains Elodie's flagship product and one of our best sellers.

What began as a neat little DIY-project has now grown to become a well-known international brand with head office in Stockholm and a fantastic group of employees that share Linda's passion for design and functionality. Together they have created a wide range of products for babies and toddlers, ranging from pacifiers and bibs to strollers and stroller accessories; products that make life with children even more beautiful.

With Love,
Linda Sätterström

TAKING RESPONSIBILITY FOR OUR CHILDREN'S FUTURE

At Elodie we recognize the contradiction between an industry driven by fast consumption, and the concept of sustainability. So, instead of identifying as a sustainable brand, we want to show you how we aim at becoming the most responsible version of ourselves. Our goal is that by 2026, every product in our assortment will be produced according to one or several of our four Production Principles.

1. RECYCLED MATERIALS

Whether it is Polyester from PET-bottles or recycled cotton, every material that is re-used rather than produced is a win for the environment.

2. MADE TO LAST

We develop all our products from scratch, which means we can control every single quality aspect of them in order to increase their lifetime as much as possible. While some products, like a pacifier, are inherently impossible to make last, many others can be used for

more than one child. To qualify for this principle, a product must pass the test of being used for a minimum of three children without losing function or attractiveness.

3. PLANT-BASED MATERIALS

Traditional plastic is petroleum-based and as such not a renewable resource. By mixing in plant-based fibers we can create materials that requires less limited resources and are much more bio-degradable than ordinary plastic.

4. UPCYCLING

Through creative design and smart ideas we make products that can be used for more than their original purpose. A diaper bag can and should be more than a diaper bag, and a Baby Gym can be converted to a clothing rack. In smart and fun ways, we help our customers reduce their overall consumption by upcycling and re-using our products.

Elodie
