SMALL PEOPLE FOR PEACE

Drop 2

SMALL PEOPLE FOR PEACE • OVERVIEW DROP 2

Elodie's Autumn / Winter 2023 collection has a message to send. It is designed with prints and patterns filled with hope. Sent with the voice of a generation that has just arrived in this world, but already knows what it wants from it. Peace and Happiness. The collection feature new Footmuffs of various kinds, Changing Bags, Headwear, Mittens and much more. And of course, new clips and pacifiers for true little pacifists who want to make a statement. The colour pallet is cantered around Pink and Blue but updated and attuned for 2023. We love flowery prints and our latest - "Blue Garden" - is filled with little tone-in-tone anemones. "Free Bird" is the defining print of the collection, where olive branches and white doves mingle with the well-known peace sign. A collection filled with structured, tactile materials and carefully selected little details. But most importantly, filled with a message that can never be repeated enough times. Small people for peace!

SILICONE BOWL SET

This beautiful bowl for first-time eaters is made with BPA-free, food grade silicone. The material lets you heat up food directly in the bowl and is virtually unbreakable. It will last for years even if it gets dropped or even thrown to the floor every day. It will not chip, crack, dent or break.

The chunky and rounded spoon in genuine wood gives tiny hands a good grip, and the rounded edge design of the bowl encourages self-feeding from your toddler by making it easy to scoop up the food. The smart suction ring lets the bowl sticks to any flat surface, giving you less floor scrubbing as a bonus. Dishwasher and microwave safe. Tested according to EN14372, fulfilling the European safety standard for feeding utensils.

Size: Height 9 cm, diameter 12 cm. Spoon is 14,5 cm long
Material: 100% Silicone. Spoon: Wood and silicone, Spoon

WATER BOTTLES

This is a light-weight water bottle for active kids. It's made from food grade stainless steel that is perfect for little adventurers as it won't chip, dent, or break even during the wildest of play. It's easy to use and the foldable straw cap makes it spill-free and keeps it clean and hygienic for longer. Choosing a stainless-steel bottle over plastic alternatives means you are guaranteed to have something that is 100% free from BPA, phthalates, or other harmful substances, and it helps you reduce your everyday use of unsustainable plastic.

The bottle can hold up to 350 ml.

GLASS FEEDING BOTTLES

Elodie's glass feeding bottles are made from temperature-resistant borosilicate glass with a food-grade silicone casing. The material makes them lightweight, durable, and scratch-resistant. The glass is naturally free from any harmful substances and the bottle can withstand temperatures from freezing to sterilization in boiling water. The dustproof cap prevents any airborne contamination of the teat, and the wide neck design makes the bottle very easy to clean. The feeding bottle is delivered with a food-grade silicon suction teat suitable for babies between 0 and 6 months. The anti-colic valve in the teat allows your baby to feed continuously without

taking in air bubbles or having to gasp for air between latches. The spiral shape inside the teat prevents teat collapse for uninterrupted comfortable feeding. Replacement teats and larger teats are available separately.

CARRY COT

With the Elodie Mondo Carry Cot your Elodie Mondo Stroller becomes your one and only! The Carry Cot is an infant bassinet that you attach to the frame of the stroller with the included adapters to create a safe and snug place to rest for your new-born. It is lined with a soft and comfortable foam mattress with a removable and washable cover. The large canopy has UV 50+ sun protection and features a built-in air vent to increase air flow on warm days. The lid is equipped with a smart wind guard that you can fold up as protection when bad weather calls for it. The Carry Cot is suitable from new-born and up to around 6 months or 9 kg. At that time, you switch back to the Elodie Mondo seat, with no need to invest in an all new stroller.

ORGANIZER

Attach our wonderful organizer to the handlebars of your stroller to keep all the important stuff where you need it, when you need it. The zip-up lid is what really sets this Organizer apart from others. Close it up to keep everything looking sleek and neat. The closed lid also enables you to just slip your hand through the carry loop on the side, giving you both hands free when lifting your baby for a diaper change.

CONVERTIBLE FOOTMUFF

Transforms to seat cushion for year-round use

This is your new best friend for the stroller, pushchair, or pram. A smart 2-in-1 product for year-round use. At the base is a good looking and well fitted stroller cushion that makes the ride wonderfully comfortable. But in less than 10 second you can zip on the lid and create a footmuff that is protective, warming, and cosy. Perfect when daytime is hot, but the night gets colder, or when the weather is unpredictable. The lid is lined with a soft cotton jersey that feels smooth against the skin and makes outside napping easy as a breeze. The zippers are premium quality and very easy to operate. Look for the many other matching stroller accessories in Elodie’s assortment to create a personal, practical, and pretty stroller experience for you and your child.

CARSEAT FOOTMUFF

Cold climate traveling made easy

Keep your little one protected from rain, wind, and cold weather with this cosy and smart product. Elodie's car seat footmuffs have universal fit and enables cold weather travel without the need for bulky clothing. The padded outer fabric and luxurious pile lining keeps your baby warm even in the coldest of weathers.

The smooth, high-quality zippers open at both ends to make it easy to get your child in and out of the car seat, and the fold down front flap offers instant temperature control. The large hood shields against winds and maintains warmth. When not needed the hood can be opened up and folded away, using a built-in zipper. The footmuff is completely machine washable and easy to keep fresh and clean.

Size: One size, suitable from 0 to 6 months

CHANGING BAGS

Elodie’s Changing Bags are designed to be multifunctional. When the diaper-changing-days are over, you can use our bags to the gym, the office, as a weekend-bag or as your favourite one-and-only bag. This way you can significantly decrease its environmental impact through upcycling.

Design and Function, this is more than just a diaper bag. With the look and feel of an exclusive handbag, we believe you will use it on all occasions. When caring for your little treasure or when caring for yourself. Either way you will love the premium feel, the high quality and all the nice features we’ve added. There are pockets designated for diapers, wet tissues, keys, mobile phone and even a thermo pocket for keeping your baby’s formula warm or your own drink cold. A soft changing mat is included with every changing bag, as well as straps that allow you to hang it from the stroller’s handle bars.

HOUSE OF ELODIE

Your ultimate Baby gym, Snuggle house and Clothing rack

This unique multi-use product will be your haven when trying to figure out how to buy less stuff - while still making sure your child has everything that he or she needs. It is made for upcycling. Depending on how you choose to combine the wood frame base (Baby Gym) you will either get a Baby gym, Snuggle

house or Clothing rack! This way, House of Elodie will be there to serve your child for years: from being a newborn discovering the world bit by bit, to becoming a baby finding the joy of play and further on growing up to a tiny version of an adult hanging up their clothes.

BABY GYM (BASE)

A steady wooden base that in combination with other parts of House of Elodie, will serve as either a Baby gym, a Snuggle house or a Clothing rack.

DESIGN FUNCTION CREATIVITY

OUR STORY

The story began in Stockholm back in 2005, when our founder Linda Sätterström had her first daughter, Elodie. Well-designed clothing for babies and toddlers where available everywhere back then. But Linda couldn't find designed alternatives for many of the other products that you need for life with a baby. So she developed her first product, a pacifier clip. One that was beautiful and that would match her daughter's outfit. She began selling the clips and the idea really struck a note with other parents. First in Stockholm, then Sweden, and finally all over the world. The pacifier clip remains Elodie's flagship product and one of our best sellers.

What began as a neat little DIY-project has now grown to become a well-known international brand with head office in Stockholm and a fantastic group of employees that share Linda's passion for design and functionality. Together they have created a wide range of products for babies and toddlers, ranging from pacifiers and bibs to strollers and stroller accessories; products that make life with children even more beautiful.

Come join us on our journey,
With Love
Linda Sätterström

Linda Sätterström

TAKING RESPONSIBILITY FOR OUR CHILDREN'S FUTURE

At Elodie we recognize the contradiction between an industry driven by fast consumption, and the concept of sustainability.

So, instead of identifying as a sustainable brand, we want to show you how we aim at becoming the most responsible version of ourselves.

Our goal is that by 2026, every product in our assortment will be produced according to one or several of our four Production Principles.

1. RECYCLED MATERIALS

Whether it is Polyester from PET-bottles or recycled cotton, every material that is re-used rather than produced is a win for the environment.

2. PLANT-BASED MATERIALS

Traditional plastic is petroleum-based and as such not a renewable resource. By mixing in plant-based fibers we can create materials that requires less limited resources and are much more bio-degradable than ordinary plastic.

3. UPCYCLING

Through creative design and smart ideas we make products that can be used for more than their original purpose. A diaper bag can and should be more than a diaper bag, and a Baby Gym can be converted to a clothing rack. In smart and fun ways, we help our customers reduce their overall consumption by upcycling and re-using our products.

4. MADE TO LAST

We develop all our products from scratch, which means we can control every single quality aspect of them in order to increase their lifetime as much as possible. While some products, like a pacifier, are inherently impossible to make last, many others can be used for more than one child. To qualify for this principle, a product must pass the test of being used for a minimum of three children without losing function or attractiveness.

Elodie
