FLEXA®

— Since 1972

For more than 50 years FLEXA has brought joy to children around the world with our unique design of children's furniture and interiors that combines Danish design with the highest standards of safety and quality. Our collections are innovative designs made from long-lasting materials, which will grow with your children as their needs change.

The collections are all designed to create a safe and stimulating environment for your child. Alongside our strategic areas Sleep, Play and Study the collections add further dimensions to the stylish FLEXA universe, designed for these three focuses.

Children and their changing needs lie at the heart of what we do, and our products are designed and developed based on our experience and extensive knowledge of this area.

Our Brand Values

- ◆ Danish design
- ◆ Expert knowledge
- ◆ Safe design
- ◆ Functionality
- ◆ Pure materials
- ◆ Playfulness
- ◆ Quality and Craftmanship

Our Certificates

OEKO-TEX standard 100

FLEXA's fabrics and mattresses are Oeko-Tex certified and are free from harmful substances. The Oeko-Tex label is your guarantee that all products comply with stricter requirements for the content of chemicals and harmful substances than traditional textiles.

Eco-friendly lacquer

For all wood products we use eco-friendly lacquer, free from solvents and toxic colourants. Chemical testing is also part of the mandatory safety tests performed by an external auditor. Our varnishing follows the EU standard for this area.

FSC and PEFC Certified

We use FSC® and PEFC® certified wood, your guarantee that your child's furniture can be traced back to responsible forestry. We recycle all waste wood in our production. Any leftover sawdust is put to good use heating our factories.

CE

All our toys have CE marking, indicating they have been assessed by the manufacturer and tested by an independent test institute, to assure all toys meet EU safety, health and environmental protection requirements.

5-year warranty

We produce furniture to the highest quality and safety standards, which is why we offer a 5-year guarantee against manufacturing defects on beds from the collections Classic, White, Nor and Popsicle.

Availability guarantee

5-year availability guarantee on selected bed systems. When you purchase a bed from the collections Classic, White and Nor you buy into a flexible bed system that can be altered and extended as and when the need arises.

2-year legal warranty

FLEXA products (unless otherwise stated) are covered by the statutory 2-year warranty as described in the Danish Sale of Goods act. The act gives the right to complain about defects present when the product was delivered to the end consumer.

Tüv GS

FLEXA furniture is made so you can design your children's room with peace of mind. For example, there are no sharp corners or edges on FLEXA's furniture - these are all rounded. All beds with a sleeping height of over 60 cm are safety tested by TÜV according to the EN 747 EU standard. All baby cots are tested according to EN 716 and Changing Units according to EN 12221.

Non-toxic furniture

FLEXA cares for your child's health, which is why all furniture from FLEXA is tested according to strict international safety standards such as EN71-3, DIN717-3 and DIN 53160. This is your guarantee of non-toxic furniture.

Play

— *More Than Just Toys*

- ◆ Especially selected and designed to support children's development
- ◆ Calming colour scheme to avoid overstimulation
- ◆ Rounded edges for comfort and safety
- ◆ Made from FSC® certified wood
- ◆ Designed in Denmark

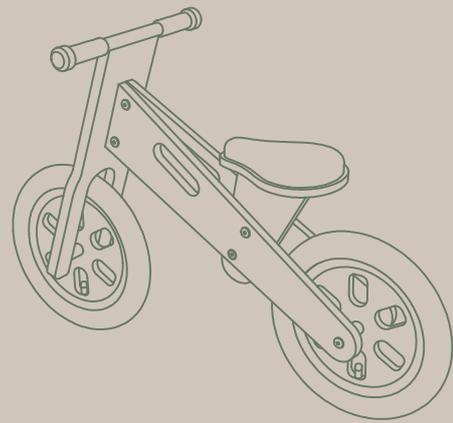

Every FLEXA Play product is designed to encourage children to **MOVE, CREATE, IMAGINE** or **EXPLORE**.

MOVE

Encouraging children's movement through play

Crawling, walking, running, jumping, gross motor skills

Improving your child's physical condition and balance

IMAGINE

Giving children the freedom to use their imagination

Dreaming, being curious and empathetic

Evolving your child's social skills, language skills and integrity

CREATE

Helping children develop
a creative mindset

Creativity, thinking outside the box,
expressing oneself

Inspiring your child to
experiment with new ideas

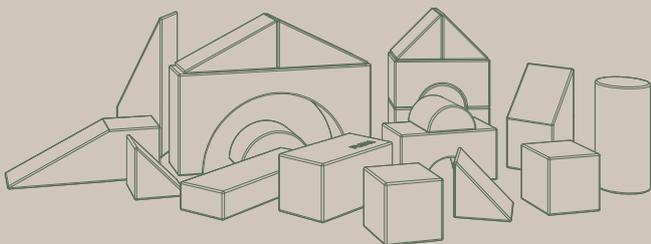

EXPLORE

Stimulating children's
cognitive development

Focusing, concentrating,
reasoning, fine motor skills

Developing your child's ability to
concentrate and think logically
