THE 2025 PLAYFUL COLLECTION // ENGLISH

KID'S CONCEPT

LET KIDS BE KIDS AGAIN.

It doesn't matter how big and tough you are, when a one-year-old hands you a toy phone, you answer it.

The most rewarding part of parenting is knowing that even on the toughest days, your child thinks you're a superhero.

"Creating a positive and nurturing home environment is crucial for a child's overall development.

We are here to guide, educate, support, inspire, and help families in achieving this."

With kindness XXO Kid's Concept

Trust your gut.

We have a meaning that guides us in everything we do: it must feel right. So if our gut tells us something else, we need to change - until it feels good again. That is why we focus a lot on the environment and creating durable products that we want to last for generations.

In our collections you will find many products made from FSC-labeled wood. Our goal is that ALL our toys will be made of FSC Certified wood. We're always trying to be better than yesterday - and we can see the small changes every day. Ever since the start, we have chosen to make our toys, interior and furniture in wood.

At Kid's Concept we are proud of our supply chain partners that take incredible pride in their craftsmanship and high-quality work. We share common values and often a long history of cooperation.

It is part of our sustainability work to improve the social conditions and minimize our environmental impact in our supply chain. We want human rights to be respected, labor standards to be high and the environment to be protected. The Kid's Concept team has many years of experience with sourcing throughout the world and we know that high standards take systematic and hard work.

We are approved to be able to use the GOTS brand on selected products. GOTS is an organization and a brand that ensures good working conditions and products free of harmful chemicals as well as environmentally friendly production.

The OEKO-TEX® STANDARD 100 logo on products means that the product meets high human ecological requirements, i.e., does not contain chemicals at levels that are harmful to the health.

Our goal is that ALL our toys will be made of FSC Certified wood. Forest Stewardship Council® is an international membership organization that works for the responsible use of the world's forests.

Table and stool set with a scratch resistant coating to withstand pencil marks.

Our children's table and stool set features a scratch-resistant coating to withstand regular pencil marks, a common challenge with children's furniture. Tested for durability, this set is ready to support all the drawing, playing, and imagination your little ones can bring to it. The tabletop and the seat of the stool are slightly thicker and larger in diameter than most available on the market. The legs are angled for a stable construction that can withstand the activities that children can subject them to.
